OUSTS OIL CASE ATTORNEY

Orders Grand Jury Probe of Herrin Riots

INVESTIGATION OF KILLING IS BEGUN BY JUDGE

Stable Non-Partisan Government Is Plan of Influential Citizens.

SUPERVISORS ARE CONSULTED

Appeal Sent To Federal Officers By Dr. Black, Owner Of Hospital.

HERRIN, Ill., Feb. 14.—Judge E. N. Bowen today ordered a special grand jury to convene at the city hall at Herrin February 25, to make a thorough investigation of the riot here a week ago resulting in the death of Constable Caesar Cagle, the serious wounding of Deputy Sheriff John Layman, the shooting into the Herrin hospital, and other disorders.

MARION, Ill., Feb. 14.—A slution of the situation in Williamson county is being considered by prominent and influential citizens, who adjourned early today after an all-night conference attended by Major General Milton J. Foreman and Carlos Black, state adjutant, commanding national guardsmen on duty in the county. When the county board of supervisors meets tomorrow, the citizens are expected to present plans for establishing a non-partisan government to assume control when the troops leave. General Foreman has urged such action be taken while the troops are on duty, otherwise they will be withdrawn and settlement of the situation will be left to the various factions themselves.

A guard was stationed at the home here of Samuel Stearns, exalted cyclops of the Williamson county Ku Klux Klan after he told authorities suspicious persons were prowling about his residence. An appeal to the federal government to intervene to protect lives and property in the county has been made by Dr. James T. Black, owner of the Herrin hospital, which was besieged by a crowd of men last Friday night. Dr. Black sent a telegram to Washington authorities Saturday morning after the troops arrived.

If the plan is approved by a national referendum he will receive an additional \$50,000.

Attempted Street Car Hold-up Fails

Two masked men attempted to hold up and rob No. 58 at the Santa Fe crossing on Gerrard avenue about 2 o'clock yesterday morning. The car had been stopped by Motorman B. H. Johnson in order that Conductor E. J. Willgrubs might flag the crossing. While it was stopped the two masked men clambered aboard, one brandishing a large nickel-plated revolver and the other carrying an iron bolt. When Willgrubs jumped back on the car one of the bandits forced him to the front of the car, where the motorman was covered. One of the burglars switched out the lights and started to relieve the men of their valuables. At this moment Police Officer Mahne passed in his automobile. He noticed that the car was lightless, so stopped his machine and came back to investigate. At the sight of the uniform the men both jumped from the car, leaving the booty behind. The bandits ran at top speed into the Santa Fe yards, where they were lost by the pursuers.

According to the description given Mahne the men were both of medium height, and well dressed. It was impossible to get a glimpse of their features on account of the bandanas with which they covered their faces.

This is the second attempted car holdup to be staged within the last two weeks, the first taking place at this same place on the 31st of January. This attempt was also frustrated, due to the quick work of Conductor William Mazenece.

Coroner's Jury Says Martinez Man Was Suicide

MARTINEZ, Feb. 14.—Arthur Gruwell, Martinez oil worker, who last week shot and killed himself in the Mountain View Tract after attempting to shoot his wife, Mabel Gruwell, and wounding Charles Whitesides, of Stockton, shot himself with suicidal intent, according to the verdict of a coroner's jury following and inquest last night. Mrs. Gruwell charged that her husband, from whom she had been separated, had several times threatened to kill himself. Gruwell shot Whitesides when his wife started to get into a machine in which Whitesides and two other friends were riding. The couple had been visiting their son at the home of a friend, where Gruwell attempted a reconciliation.

The same jury returned verdicts of accidental death in the cases of Mrs. Mary Thomas, of Nortonville, and John Cardinall, of Pittsburg, both of whom were burned, the former when her home was destroyed, and the latter when his boat was fired by a lamp explosion while in Suisun bay.

Local Rotarians To Visit Martinez

A luncheon will be held in Martinez at 12:15 today for all those who can not make the trip to Martinez.

EGYPT PREPARES TO CLAIM TUT TOMB TREASURES

Pharaoh Allowed To Resume His Slumbers While Question Is Debated.

TROOPS PATROL PRECINCTS

Legal Aspects Of Case Discussed By Government And Excavators.

LUXOR, Egypt, Feb. 14.—The interrupted slumber of King Tut-Ankh-Amen has been resumed. The great golden effigy of the Pharaoh remains staring up at the raised granite lid of his coffin behind the padlocked doors of his tomb.

The precincts are patrolled by specially strengthened police guards with loaded rifles and with strict injunctions to prevent access by any one. Howard Carter has retired to his house worn out with fatigue and worry, while in Cairo the Egyptian premier is personally inquiring into the legal aspects of the dramatic breach between the excavators and the government.

There is reason to believe that the question of the proprietorship of the treasures of the tomb played a certain part in the long dispute which led to the split. If the tomb is accepted as a "violated sepulchre," it is said, according to the excavators' license the treasure will be divided between the Cairo Museum and the excavators. If, however, the tomb is ruled to have been intact, the whole of the find goes to the Cairo Museum.

Charges Husband With Desertion

MARTINEZ, Feb. 14.—Charging that her husband, whom she says is a capitalist worth \$100,000, deserted her on December 1, 1922, Mrs. Elizabeth Toomey today filed suit against Richard James Toomey for separate maintenance, and asks the Superior court to allow her \$500 monthly for the support of herself and year-old daughter Marjorie. The suit was filed through Nathan Coghlan, San Francisco attorney.

Mrs. Toomey alleges that she is now, and for months past, has been in need of clothing, food and other necessities. She places Toomey's income at \$1,000 monthly and declares he is engaged in the stock and bond business. The couple were married in San Francisco on November 30, 1921.

Son Of Port Costa Constable Dies

MARTINEZ, Feb. 14.—Robert J. Ahern, 20, son of Constable and Mrs. James Ahern, of Port Costa, died at the hospital here today following an operation for appendicitis last night. He had been ill but a few days. The body was removed to the Curry funeral parlors pending completion of funeral arrangements.

Ahern was born at Port Costa. Besides his parents he is survived by three brothers, William P. Francis, and James J. Ahern, and five sisters, Mary, Dora, and Anna Ahern of Port Costa, and Mrs. Andrew Ahern of San Francisco.

Valentine's Day Forgotten By Mary Pickford

CHICAGO, Feb. 14.—Valentine's Day meant just another leaf torn off the calendar for Mary Pickford. Even Douglas Fairbanks, her husband, forgot to send her a frilly lace memento of his love. Fairbanks was reminded that today was Valentine Day when he alighted from the train in company of his wife and her niece, en route to New York and a two months' trip to Europe. "Is it, really?" asked Miss Pickford. "Well, it's one on me," he apologized. "I forgot it, too."

When quizzed last night Hendrixon refused to plead guilty to the charge of illegal possession of liquor.

Knecht has been given three years at Folsom, and Harry Weidner and George Jackson, each two years at San Quentin.

SILAS STRAWN NOMINATION IS NOW WITHDRAWN

Action Taken By Coolidge Said To Have Been Caused By Senate.

WILL BACK ATLEE POMERENE

Publisher of Washington Post Is Called To Testify Before Committee.

WASHINGTON, Feb. 14.—President Coolidge late today withdrew the nomination of Silas H. Strawn of Chicago to be one of special counsel in the great oil lease scandal. Notification was given at the same time by the Chief Executive that he would insist on the acceptance of Atlee Pomerene, the Democrat, who had been nominated with Strawn.

The action followed an executive meeting of the Senate investigating committee, at which it was decided that neither Strawn nor Pomerene was acceptable to the committee.

The President takes the ground that the committee's decision, while justifiable in the case of Strawn, was not fair to Pomerene. Strawn was shown to have been an officer of the First National Bank and First Trust and Savings Bank, Chicago, known as a Standard Oil institution. Objections to Pomerene were largely political. It was not shown that he had any oil connections.

This new controversy is understood to have been the subject of a conference at the White House this evening between the President and Strawn and Senator Lenroot, chairman of the investigating committee. They were in conference for more than an hour, the strictest secrecy veiling their discussion. A subpoena was issued late today for Edward B. McLean, publisher of the Washington "Post," an intimate friend of the late President Harding. McLean is now at Palm Beach, Florida.

Water District Asks Injunction

An injunction preventing the East Bay Water Company from constructing another dam across San Leandro creek as a part of their recently announced \$3,000,000 improvement project is asked in a suit filed in Superior court by the Eden Town ship Water district, which represents 3500 property owners.

It is the contention of the latter district that the additional dam will drain the lands owned by the plaintiffs of sufficient water for irrigation. This will reduce the value of the land by half, it is asserted, as it will make necessary the growing of hay and grain, instead of grapes and other fruits.

It is asserted that more than 13,000 acres of farm land will be affected by the dam. This land, it is claimed, has underlying it water-laden gravel, from which water is now taken to irrigate. The water level in this gravel will be lowered to such an extent that it will not be available for irrigation purposes if the dam is built, the plaintiffs contend.

The dam, which the East Bay Water Company proposes to construct will be in San Leandro creek, above the present dam, which forms Lake Chabot, the complaint states. Authority to proceed with the dam was recently given the company by the Railroad Commission.

Party Affiliation Necessary To Vote At Coming Primary

Persons who have declined to state any party affiliation in registering this year will be unable to vote at the May presidential primaries, it was announced yesterday by County Clerk J. H. Wells.

But, there is relief for those who have registered in this manner. If they desire to vote at the May primaries they can sign affidavit at the county clerk's office or with any registration deputy, change their registration and be duly affiliated with the party of their choice. The change, however, must be made before the close of registration for the election, one month before the primaries.

Ban on those declining to state any party affiliation from voting at the May primaries was placed in a law enacted at the last session of the state legislature. Heretofore persons declining to state party affiliation have been privileged at the May presidential primary to declare themselves at the polls.

The law, according to the clerk, places no such ban on the August primaries, since at that election there will be a non-partisan ticket. Under the law persons affiliated with any party not having a ticket in the field are also banned from voting at the May primaries.

According to the clerk one reason for the law is evident inability of clerks to determine their order of ballots. Another is to prevent persons of one political persuasion to vote for the weakest candidates of their choice to face the strongest man of their party.

Give Program At Gideon Meeting

An interesting program was given at the banquet and meeting held last night by the Gideon club of the Baptist church. The principal talk of the evening was given by Loren Jones, of the John Brown evangelistic party, who took as his subject, "Personal Consecration," taking his text from Romans 12:1. Jones told of the personal sacrifices which are necessary for the living of an ideal life.

Vocal solos were given by Ernest Howard, while piano selections were rendered by W. H. Clark. A decoration scheme in keeping with Valentine's day had been carried out and an elaborate banquet was served. Following the meeting the members adjourned to the tabernacle.

State Controller Reports Tax Levy

State Controller Ray L. Riley reports that the tax levy of the various counties of the State of California for the year 1923-24 totals \$147,248.52 and compared with the year 1922-23 shows an increase of \$14,302,566.74, the chief items of increase being \$5,000,000 for schools; \$1,000,000 for school buildings and approximately \$2,000,000 interest and redemption of school bonds. Miscellaneous items account for \$2,000,000. Salaries, hospital, bridges, library, and other funds have increased at a somewhat lesser percentage.

The increase over last year is substantially the same percentage as the increase that has prevailed during the last seven years. For the year 1917-18 the total tax levy for the items included in this statement amounted to \$5,129,980.47, or more than 100 per cent increase in seven years.

Says Cotton Mill Here Is Favored

E. W. Tarr, president of the Interstate Textile company, has been investigating this city as a possible site for a cotton mill, which if erected here, will employ thousands of workers. Tarr came to the coast last year with the object of selecting a site for a factory for the manufacture of staple cotton goods.

Tarr stated yesterday that "Richmond provides both the climate and other conditions which are necessary to the textile industries." He continued: "The climate is proper for both handling of cotton and to receive the best results in weaving. We need a site of 100 acres and are negotiating for such a site in Richmond, because we believe that with its fine railroad and water facilities the city is an ideal location."

Councilman E. J. Garrard, accompanied Tarr on his trip about the city yesterday and gave him every aid in helping the selection of a suitable site.

Fiery, Itching Skin Is Quickly Soothed With This Sulphur

Mentho-Sulphur, a pleasant cream, will soothe and heal skin that is irritated or broken out with eczema; that is covered with ugly rash or pimples, or is rough or dry. Nothing subdues fiery skin eruptions so quickly, says a noted skin specialist.

The moment this sulphur preparation is applied the itching stops and after two or three applications, the eczema is gone and the skin is delightfully clear and smooth. Sulphur is so precious as a skin remedy because it destroys the parasites that cause the burning, itching or disfigurement. Mentho-Sulphur always heals eczema right up.

A small jar of Rowles Mentho-Sulphur may be had at any good drug store.

CURED OF DROPSY FIVE YEARS AGO—IN FINE HEALTH EVER SINCE

Merced, Calif., Jan. 23, 1924.
To Whom It May Concern:—Five years ago I was suffering from a dropsical condition and my stomach was greatly distended by gas and water. I could neither lie down nor breathe with comfort, and many were the nights that I had to sit up to get my breath. Some of the physicians by whom I was treated thought that my trouble was due to the heart, but no matter what treatment they administered, I was neither relieved nor otherwise benefited.

Fortunately a friend of mine told me of the wonderful success of the FONG WAN HERBALIST. I took his herbs for only a FEW WEEKS, but was ENTIRELY CURED. This was five years ago, and I have had no ailment of any kind since.

I formerly lived at 417 48th St., Oakland, but am now living in Merced. I am sending this testimonial and my photograph to the FONG WAN HERB CO. to again express to them my happiness over my COMPLETE AND PERMANENT RECOVERY.

HONORED AT PASTY

Mrs. George Kell of San Francisco was honored at a dinner party given by Mrs. E. R. Lauritzen yesterday at 1 o'clock at her home at 1010 Ohio street. The table was beautiful with spring flowers. Mrs. Kell was in Richmond to help organize the Richmond Federation of Parent-Teachers' associations. She is the president of the Berkeley federation.

The dinner guests were Mesdames Billy Brown, N. P. Bush, Hutt Brown, G. B. Lauritzen, C. S. Rowick and Miss Nora Ashfield.

Ruth Clifford In "Hell's Hole" At California

When a man's heart grows strong and a coward's beats meekly, the face of three people hang in the air. Buried in a small cabin beneath an avalanche of rock and dirt with a flickering candle in-

CHARLES JONES IN "HELL'S HOLE"

minating the amount of oxygen in the dusty air, are two men and one girl. When that candle goes out, so do the lives of those three. The coward cringes, perspiration running in streams down his distorted face as he stares at the weak-ling candle flame.

This is the tense "Hell's Hole" scene which is the climax of the William Fox feature of that name coming to the California Theater today for a two-day run with Charles Jones as the star. Incidentally, it is only one of many tense scenes that make of "Hell's Hole" a thriller of the first magnitude, with romance softening the clash of men and the dash of action.

Ruth Clifford plays the feminine lead opposite Jones. Maurice B. Flynn handles the heavy role, and others in the cast include Kathleen Key, Hardy Kirkland, and Eugene Pallette.

Emmett J. Flynn wielded the megaphone for this special. He not only "stepped on the gas" and scored a winner for speed, but he kept one eye on beautiful scenic and photographic effects. The story is an original by George Scarborough, adapted by Bernard McConville.

Added features on the same program: "Aggravating Papa" with Jimmie Adams, a Christie comedy; Kinogram, visual news of all the world; Larry F. Canelo, at the California organ, playing Spanish selections.

Drew Asks Aid In Law Enforcement

A letter inviting all members of the California State Automobile association to join in the campaign by the Eastbay Safety council to check reckless automobile driving, has been sent out by James T. Drew, chief of police of Oakland. In this letter Chief Drew gave his unqualified approval of the campaign of the Eastbay Safety council, including its appointment of 1000 secret civilian police to report cases of reckless driving.

"It seems to be the consensus of opinion," wrote Chief Drew, "that the Eastbay Safety council is doing splendid work, and we feel sure that before the end of 1924 there will be a very substantial reduction in the number of automobile accidents and fatalities.

"If there are any members of the automobile association who are not already functioning in conjunction with the various luncheon clubs and organizations now affiliated with the Oakland police department and the Eastbay Safety council, it will be most desirable and acceptable for me to invite their whole-hearted support and co-operation.

"The citizens of Oakland are showing a splendid spirit of public interest in responding to this great humanitarian work.

"Oakland has 60 odd square miles of territory, while San Francisco has 40 odd. When you take into consideration that San Francisco has a police force in excess of 1000 men and Oakland has 320 men, you can readily understand that effective work is being accomplished. Oakland takes care of traffic coming in from Berkeley, Piedmont, Richmond, Alameda, San Leandro, Hayward, San Jose, and all along the valley.

"I am indeed glad to know that the automobile association is taking an interest in this work."

Retreading Saves Tires Is Claim

Two casings, one of which had rolled up a mileage of 31,000 and the other 20,000 miles, were recently removed from the driving wheels of a Cadillac sedan owned by A. G. Zeller, president of the Michigan State Automobile School, Detroit.

"These casings were in such good condition that I had them retreaded and am using them now for spares," said Mr. Zeller, who attributed their long life as much to careful driving as to tire quality.

Careless application of brakes and too great an eagerness to accelerate from nothing to 30 miles an hour in a few seconds, contribute greatly to the strain and excessive wear of tires. Improper inflation is another thing that quickly ruins even the best casings.

"Own a pressure gauge and use it. Take the trouble to remove tires and tubes for inspection now and then; keep the rims clean; watch the tube projecting flap to make sure it is properly in position and not wrinkled. Look the casings over for signs of damage and make little repairs where necessary.

"These things are as important for tires as oil is for the engine. Unfortunately many motorists are unfamiliar with tire construction and tire care.

"Use tires are not always worth retreading, however. Some tire repair shops will retread a casing just to get the job, regardless of the condition of the fabric. If the carcass is in good condition it certainly pays to retread it. One of my casings which blew out recently at 32,000 miles, had been retreaded twice, in our own tire department.

"The fact is that tires never were so good as they are today. When one remembers that tires are nothing but cloth and rubber, and that just a few thicknesses of these materials may be holding up a 5000-pound car, the automobile tire appears in the light of a very marvelous device."

Grizzlies Plan To Hold Reunion

Hundreds of war veterans will attend the reunion and banquet of the 144th Field Artillery, better known as the California Grizzlies, in San Francisco February 23.

Committees for the banquet will include L. Dudley Sweeney, chairman of the attendees committee; Richmond Tatham, chairman of the housing committee; and Sam M. Markowitz, chairman of the publicity committee.

All former members of this organization, scattered throughout the state, are requested to communicate at once with general headquarters, 926 Mills Building, in order to assure them a reservation.

There is no short-cut to success Savings is insurance against turns in fortune

THESE are excerpts from Andrew W. Mellon's recent letter entitled *SUCCESS—A Message from the Secretary of the Treasury to the People of the United States*. The letter:

Every boy and girl and every man and woman must have certain assets and achieve success—not material assets alone, but assets of character, and among the most important of these are ambition, industry, personality, and thrift.

Ambition is the will to attain something. The desired object may be knowledge, or honor, or power, but whatever it is, the ambition to reach it must be backed by the willingness to work for it. Mere wishes accomplish little without the aid of earnest application and industry.

The asset of personality is more elusive and seems to be born in some people without any effort on their part, but, on the other hand, it may be acquired by everyone who will concentrate on his career and not let it be marred by carelessness and indifference.

To save part of what one earns is another vital element in a successful life. Savings are not only insurance against the turns of fortune, but also a means of seizing golden opportunities, which are so often lost through the lack of a small amount of capital.

This brief sketch of some of the necessary qualities should be enough to show that there is no easy road or short cut to success. It means constant hard work and saving, and many sacrifices, but it is really worth them all through the ultimate feeling of accomplishment and the lasting happiness which it brings to its possessor.
